

Press release

InclusiVR@work team and CYENS are pleased to announce that Dr Kalliopi-Evangelia Stavroulia successfully presented a research paper, titled “Fostering inclusive work environments through immersive training solutions for visual impairment awareness,” at the 22nd EuroXR International Conference – EuroXR 2025, held from September 3rd to 5th, 2025, at the Campus St.-Georgenplatz – ZHAW School of Management and Law, Winterthur, Switzerland. The presentation was part of the application track, and it attracted attention from researchers, academics, industry professionals, and policymakers. The paper has now been officially published in the conference proceedings, which are available on the EuroXR 2025 website.
